SKILLS

- Python ★★★★★
- ROS1/2 ★★★★★☆
- OpenCV ★★★★★☆
- IssacSIM ★★★★★☆
- Gazeboo ★★★★★☆
- ros2_control ★★★★★☆
- PLCs ★★★★★☆
- Git, GitLab ★★★★★☆
- Object Detection ★★★★★☆
- & Segmentation

CERTIFICATES

- Building Automation Robots using Python & ROS (Decibels Labs)
- LeRobot Worldwide Hackathon (HuggingFace)

LANGUAGES

English (C1) German (B2)

HOBBIES

PROFILE

I am passionate about pushing the envelope in what is possible to evolve the future of Robotics. Toward this end, my works focus on connecting the fields of motion planning, semantic reasoning, and 3D scene graphs.

WORK EXPERIENCE

CinSOIL GmbH, Berlin (Remote) 01 / 2026 – Present
AI Engineer (Werkstudent)

- Developed **AI chatbot with RAG and hybrid retrieval** capabilities
- Deployed optimized AI models via **CI/CD** pipelines.

Fraunhofer IPA, Stuttgart 07/2025 – 12/2025
Research Assistant (R&D Project)

- Developed **Multi Agents** pipeline using **LangChain** and **LLMs** to **extract** and **structure metadata** from **Github repositories**.

PROJECT

Open Vocabulary Mobile Manipulator 10/2025 – 02/2026
Humonoid Robotics Lab, University of Bonn

- Implemented **multimodal AI** pipeline combining LLM reasoning (**DeepSeek**) with VLMs (**OWL-ViT, SAM3**) on **Neobotix MPO-700**
- UR5e arm** for open-vocabulary **pick-and-place** task in a **home** environment.

Control Plugin for Solo12 Quadruped Robot 07/2024 – 09/2024
Software Development Project (Course work)

- Programmed **Mock Hardware Plugin** using **ros2-control** library.
- Tested different **trajectories frameworks** for controller
- Validating joint trajectories and **kinematics in Gazebo/Rviz2**.

EDUCATION

M.Sc. Autonomous Systems 09/2023 – Present
Hochschule Bonn-Rhein-Sieg
Focus: AI · ML · Robotics **Grade:** 2.3

B.Eng. Mechatronics 2019– 2022
University of Mumbai
Focus: Control Systems **Grade:** 1.6
